

GEORGE LESLIE LTD

CARDOWAN RAILWAY BRIDGE

The contract was to provide a temporary solution to remove the weight restriction on this existing road bridge spanning the main railway line, to allow unrestricted, single-lane access controlled by traffic signals over the weak bridge.

The work involved a full road closure and the

installation of temporary traffic diversions, whilst maintaining pedestrian access. Thereafter a 'long-term', temporary rollover bridge was installed by spanning the existing bridge.

The installation was carried out under a full railway 'possession' closure.

<u>CLIENT</u>	North Lanarkshire Council
<u>CONTRACT VALUE</u>	£197,819
<u>DURATION OF WORKS</u>	March 2008 – April 2008
